Letter of Compliancy

Thank you for your interest in our lead-free Sunset Hill Stoneware products. The following certifications ensure you can trust Sunset Hill Stoneware pieces to be 100% lead-free and non-toxic making them food safe.

Our clay materials are certified under the Art & Creative Materials Institute, Inc. (ACMI) program. Products bearing the AP (Approved Product) Seal of the ACMI are certified non-toxic. A medical expert evaluates each product and its ingredients. AP certification is reviewed by ACMI's Toxicological Advisory Board. Our clay materials are certified by ACMI to be labeled in accordance with the chronic hazard labeling standard, ASTM D-4236 and federal law P.L. 100-695.

Our handcrafted stoneware products have been tested by an independent analytical laboratory at Brandywine Science Center, Inc. They have tested Sunset Hill Stoneware products for leachates from glazes to ensure lead and cadmium metals meet FDA and California Proposition 65 compliancy standards.

Finally, Sunset Hill Stoneware products are 100% made in America using American materials and labor.

Sincerely,
SUNSET HILL STONEWARE, LLC
